

Vantage

It Pays to Protect.[™]

Protect Your New Pontoon with **Vantage Protection Film**[™]

What is It?

Vantage Protection Film[™] is virtually invisible and extremely durable. Developed by 3M in the 1960's, it was originally developed to eliminate abrasion on Military Aircraft. Over the last 20 plus years, this film has become extremely popular in the automotive industry. There is a reason almost all luxury auto brands recommend this protection in their dealerships.... **IT WORKS!**

Why Your Boat Needs It?

1. **Protect Your Aluminum Tubes from Scratching, Marking and Abrasion**
2. **Increased Resale or Trade Value**
3. **Keep Your New Boat... Looking New**
4. **Peace of Mind / Protecting Your Investment**

Vantage

Protection Film[™]

It Pays to Protect.[™]

“ We just purchased our second pontoon boat for the family. After seeing first hand the scratching and marks that do accumulate over time on the aluminum tubes, going with Vantage Protection Film on our new boat was an easy choice for us! ”

Bruce H.
Brainerd, MN

“ Last year we learned that once you scratch a pontoon tube, the scratch is there for good. We will certainly include Vantage Film on our next pontoon boat purchase. ”

Sarah T.
Kansas City, KS
